### UP TO 7 CEU'S FOR ARCHITECTS AND CONTRACTORS

PROVIDER # 0004670  
COURSE # 0611098

BSS - 18 - 1-6 LU/HSW

The Sixth Edition of the Florida Energy Conservation and Residential Building Codes became effective December 31, 2017. But the effective date of an important provision requiring the air tightness of new homes to be tested with a blower door and mechanical ventilation was effective July 2017. New homes must now meet these requirements. This Seminar of best practices for future code compliance in the building envelope prepares architects and contractors for the impact of building air tightness and ventilation upon the control of moisture whether liquid or vapor.

### TOPICS INCLUDE:

- Roofing in Hot and Humid Climates
- Fenestration
- Humidity Control to Avoid Microbial Growth
- Duct Condensation
- Heat and Moisture in Buildings
- And more...
