

AIA Florida Southwest
Continuing Education Breakfast Meeting

Hoover Treated Wood Products, Inc.

Course Title: Fire-Retardant-Treated Wood and the Building Code

Course Description:

Discussion of fire-retardant-treated wood technical characteristics and building code related applications. Emphasis is placed on the testing and labeling required.

1. **Understanding what is FRTW**
2. **Why it is allowed in noncombustible construction**
3. **What products are available**
4. **How to identify FRTW**
5. **Product labeling**
6. **Uses allowed in the building code, and insurance recognition**
